

Does Your Favorite Color Affect Your Hobbies And Personality Traits

Hypothesis

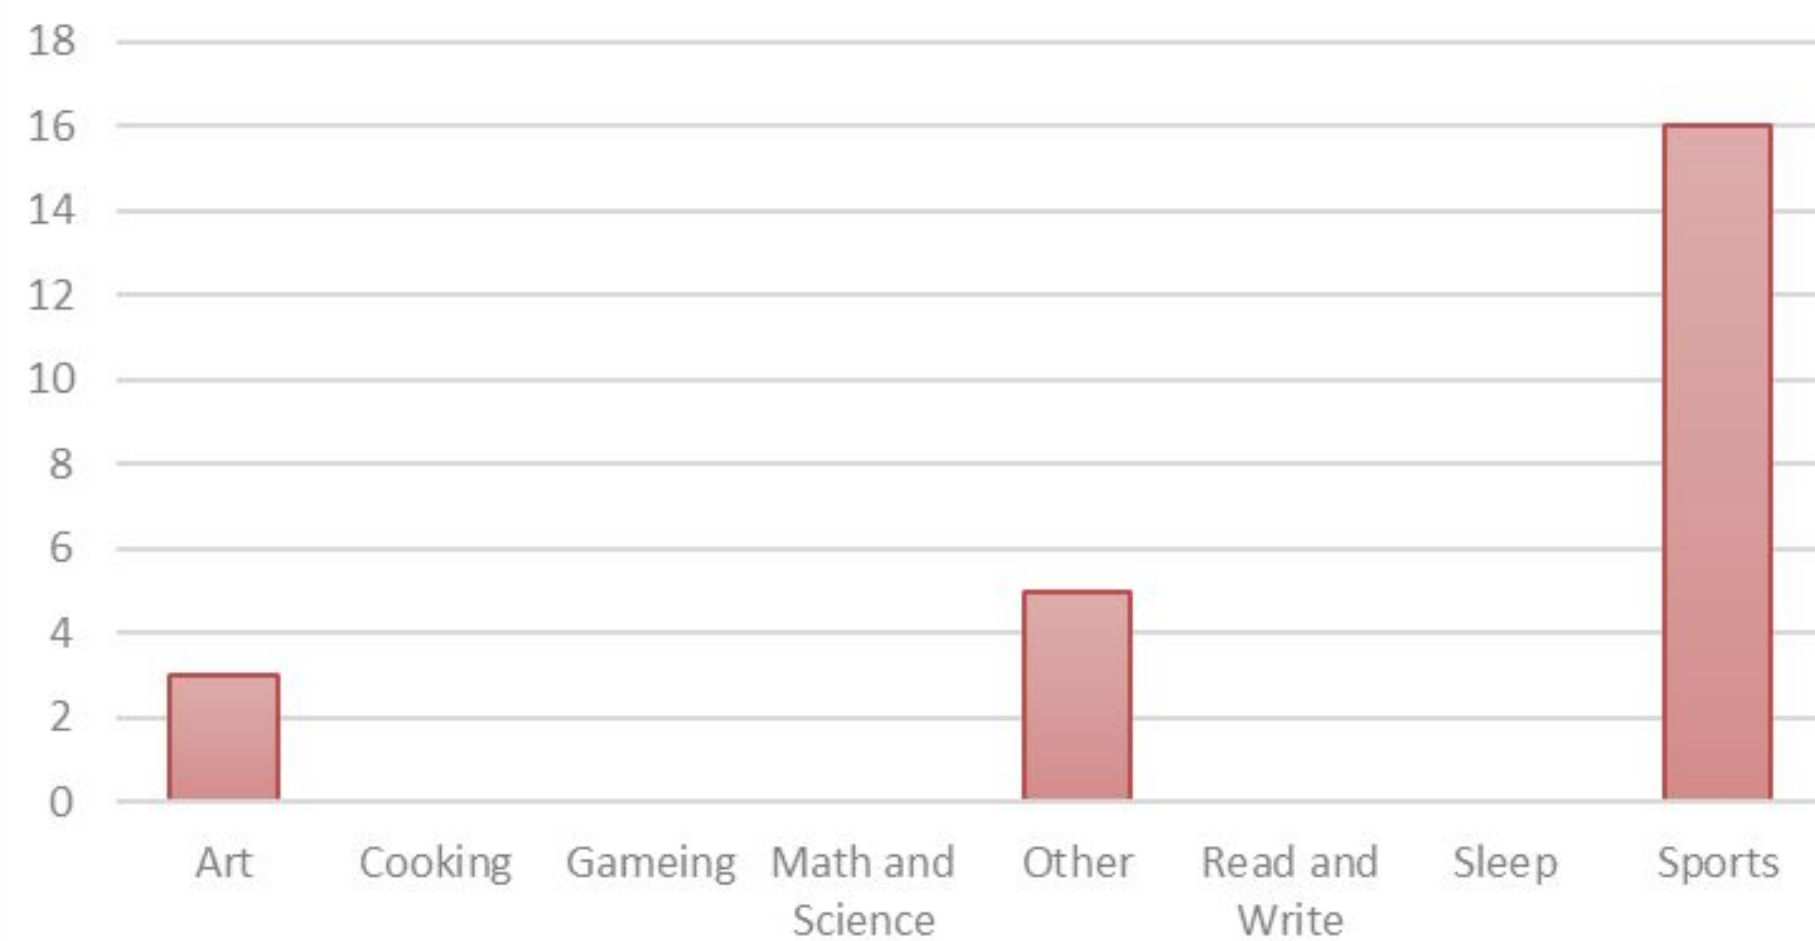

We think that there might be a pattern between what people's favorite colors are and what their personality and favorite hobbies are like. For example, people who like red might be hot-tempered, or people who like green or blue could be easygoing. Or maybe people who like sleeping also like cool colors such as blue, green or purple.

WARM COLORS

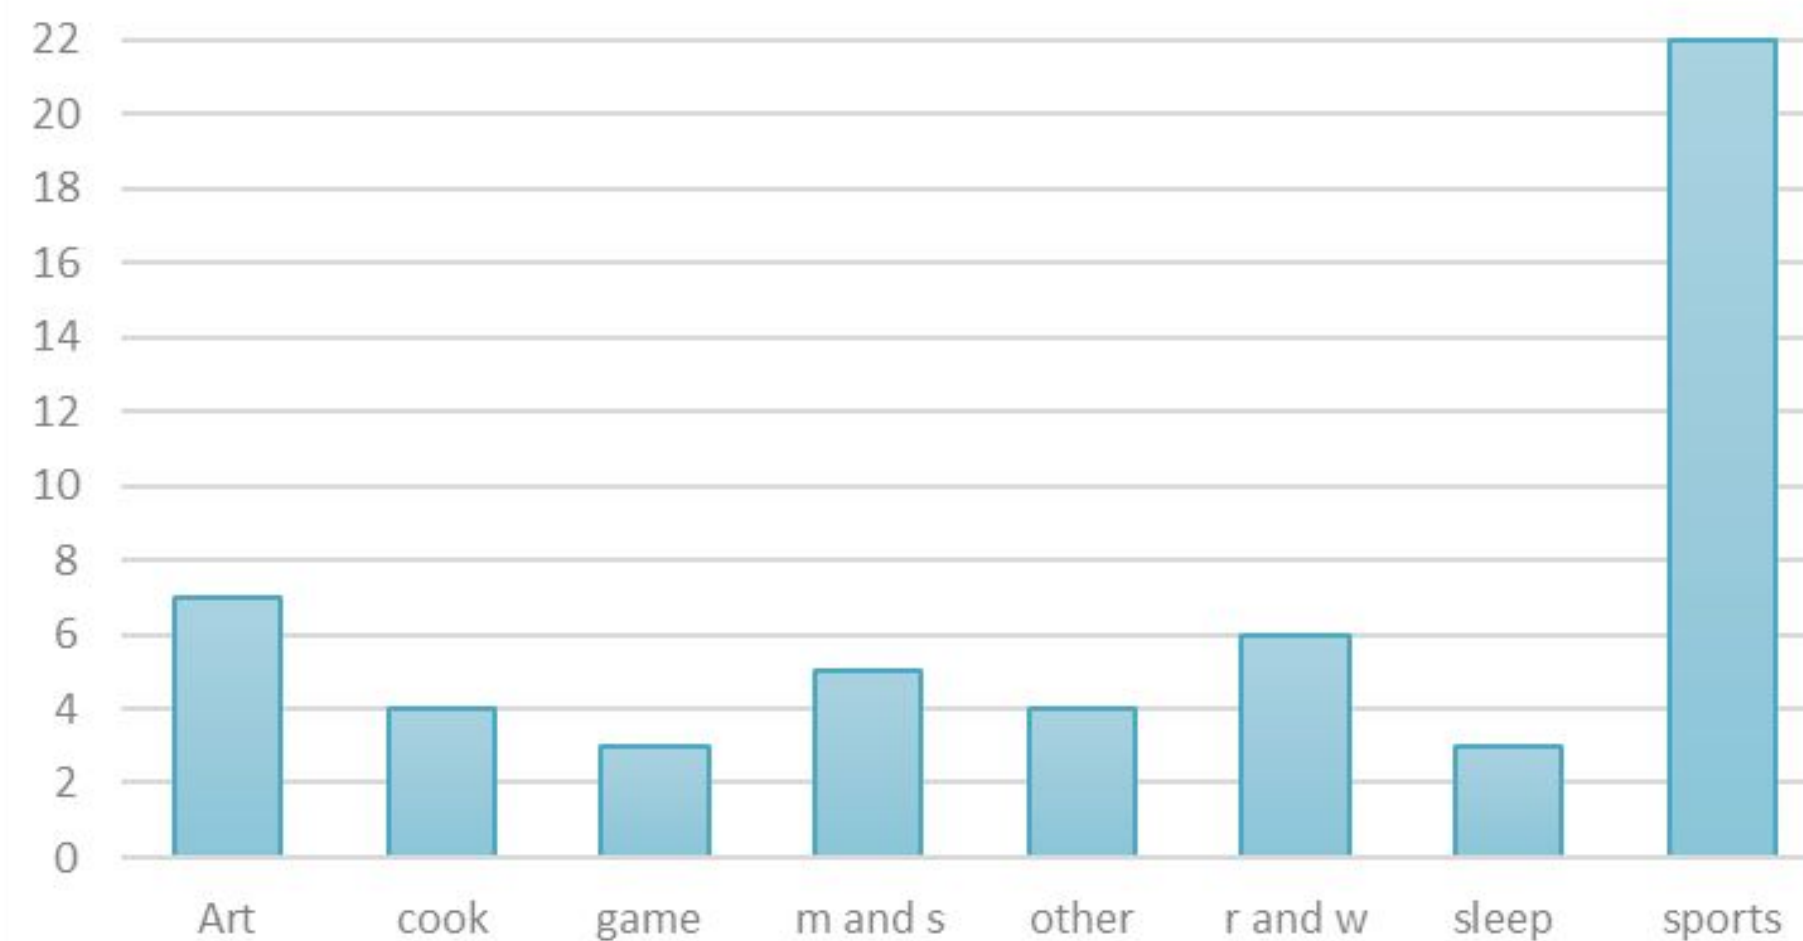

COOL COLORS

NEUTRAL COLORS

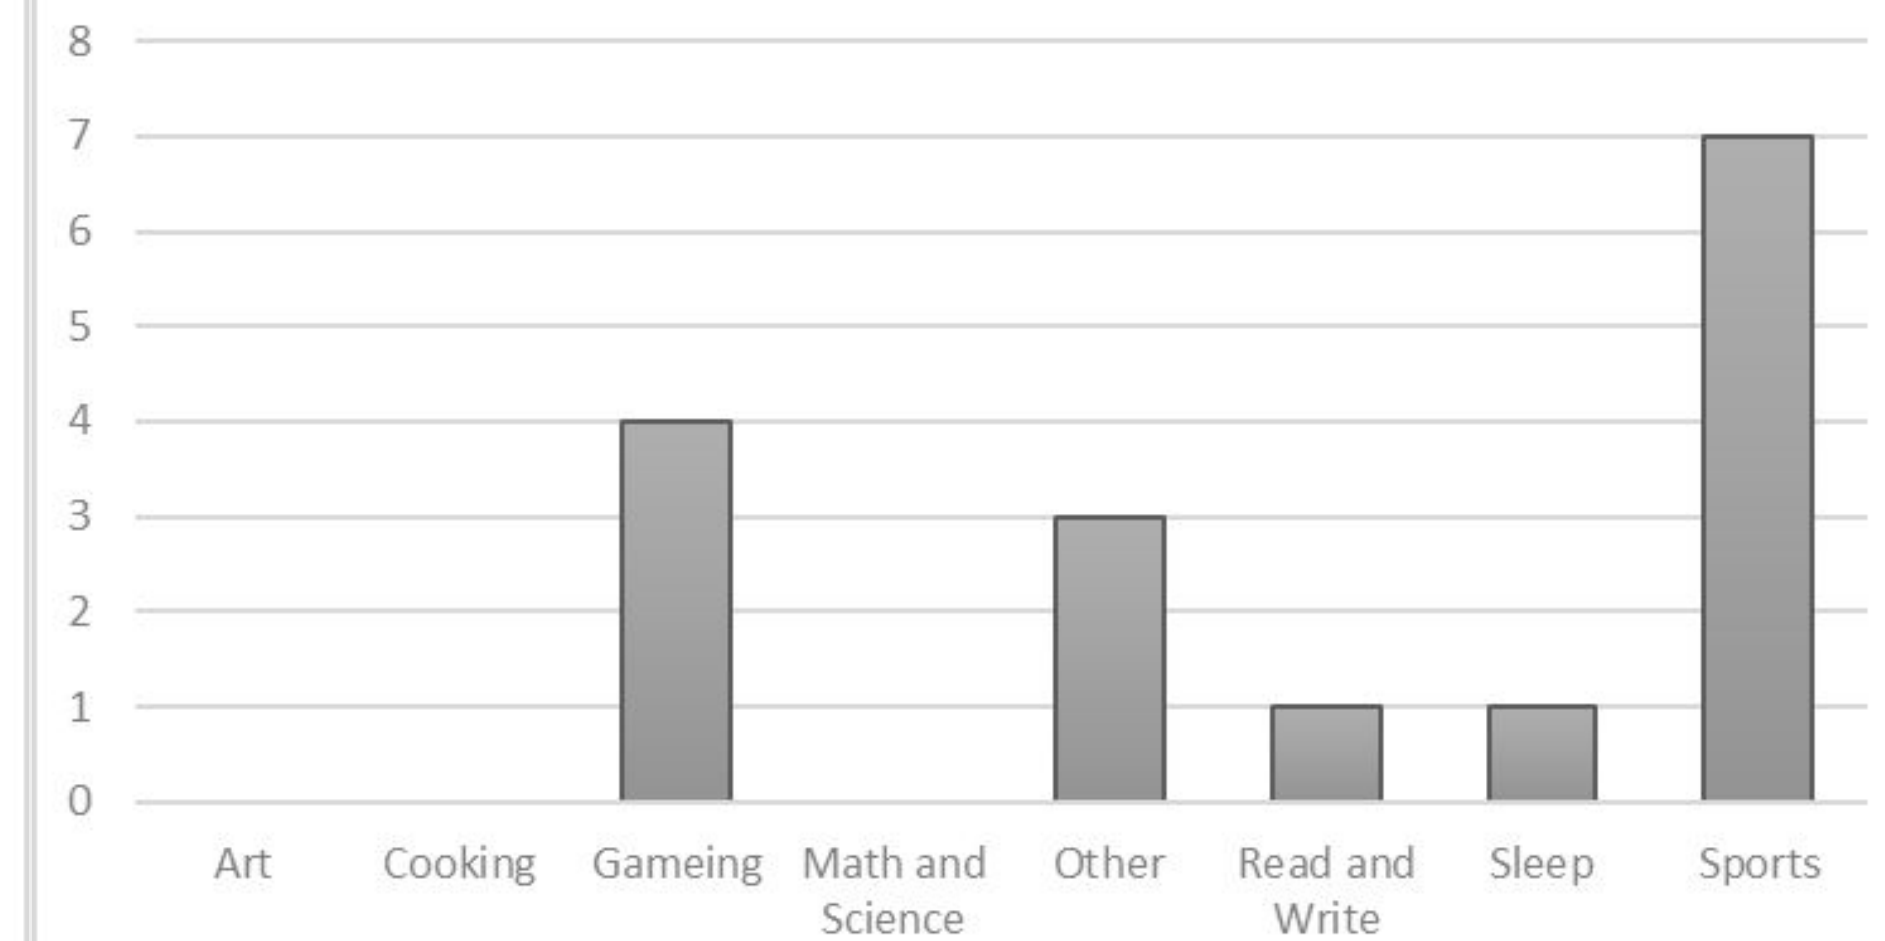

Warm Color's Hobbies

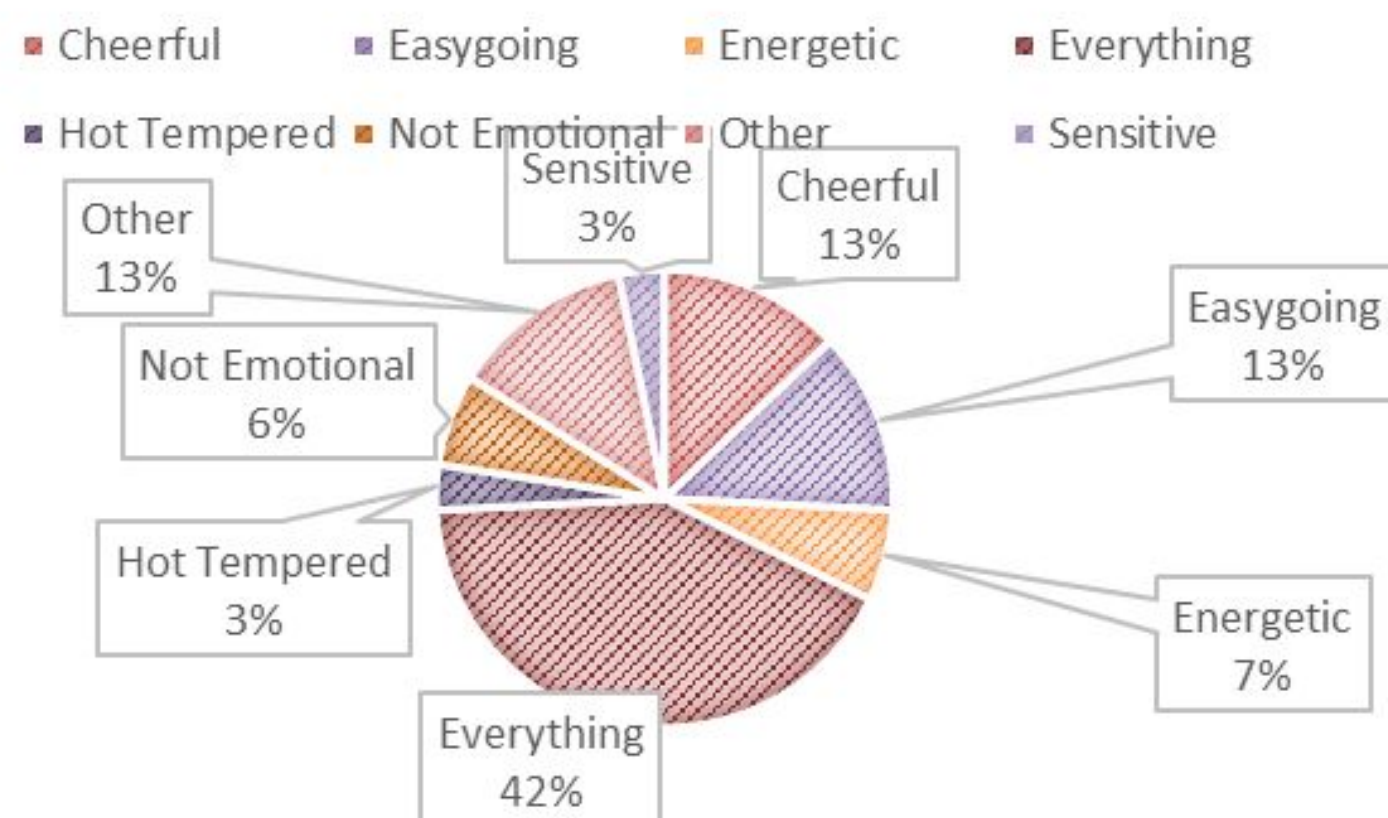

Cool Color's Hobbies

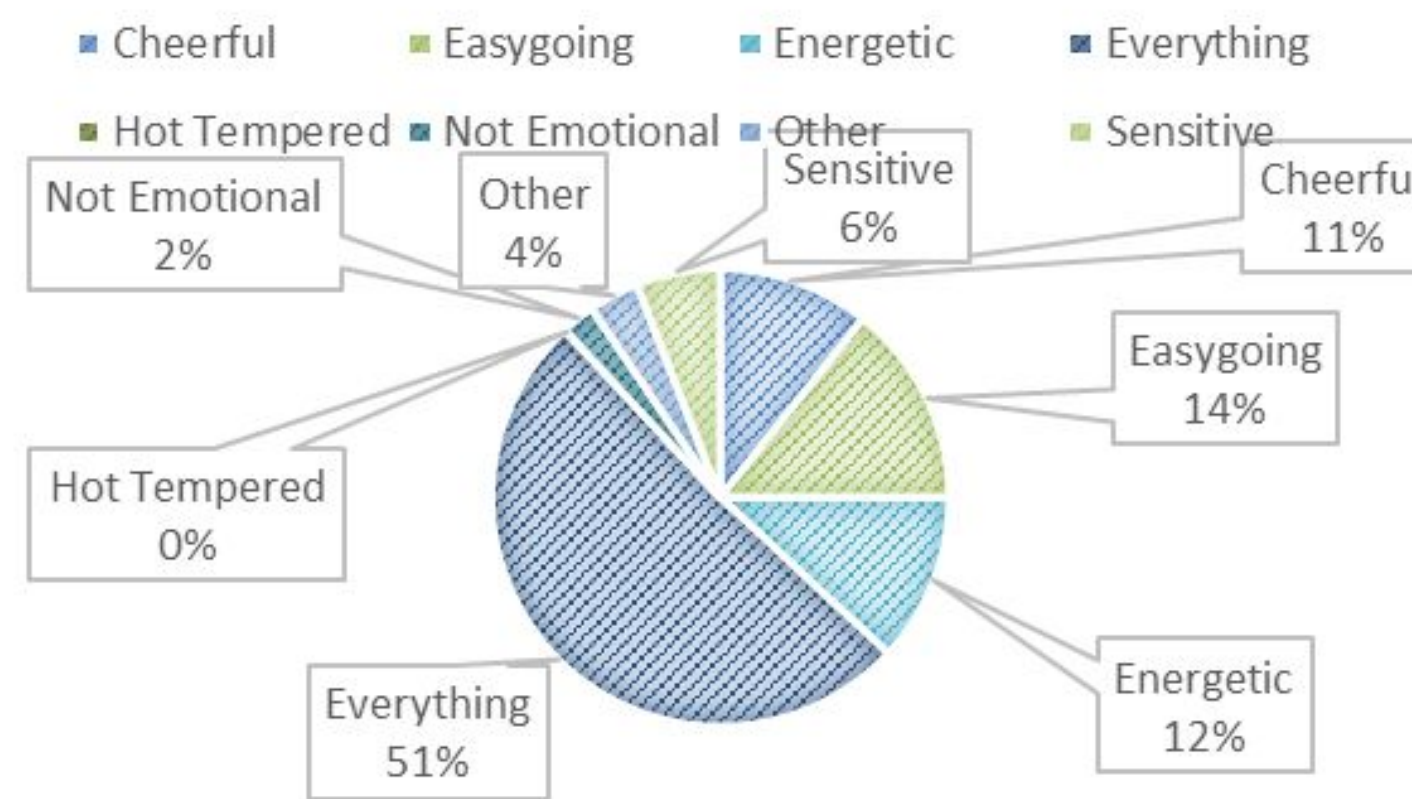

Neutral Color's Hobbies

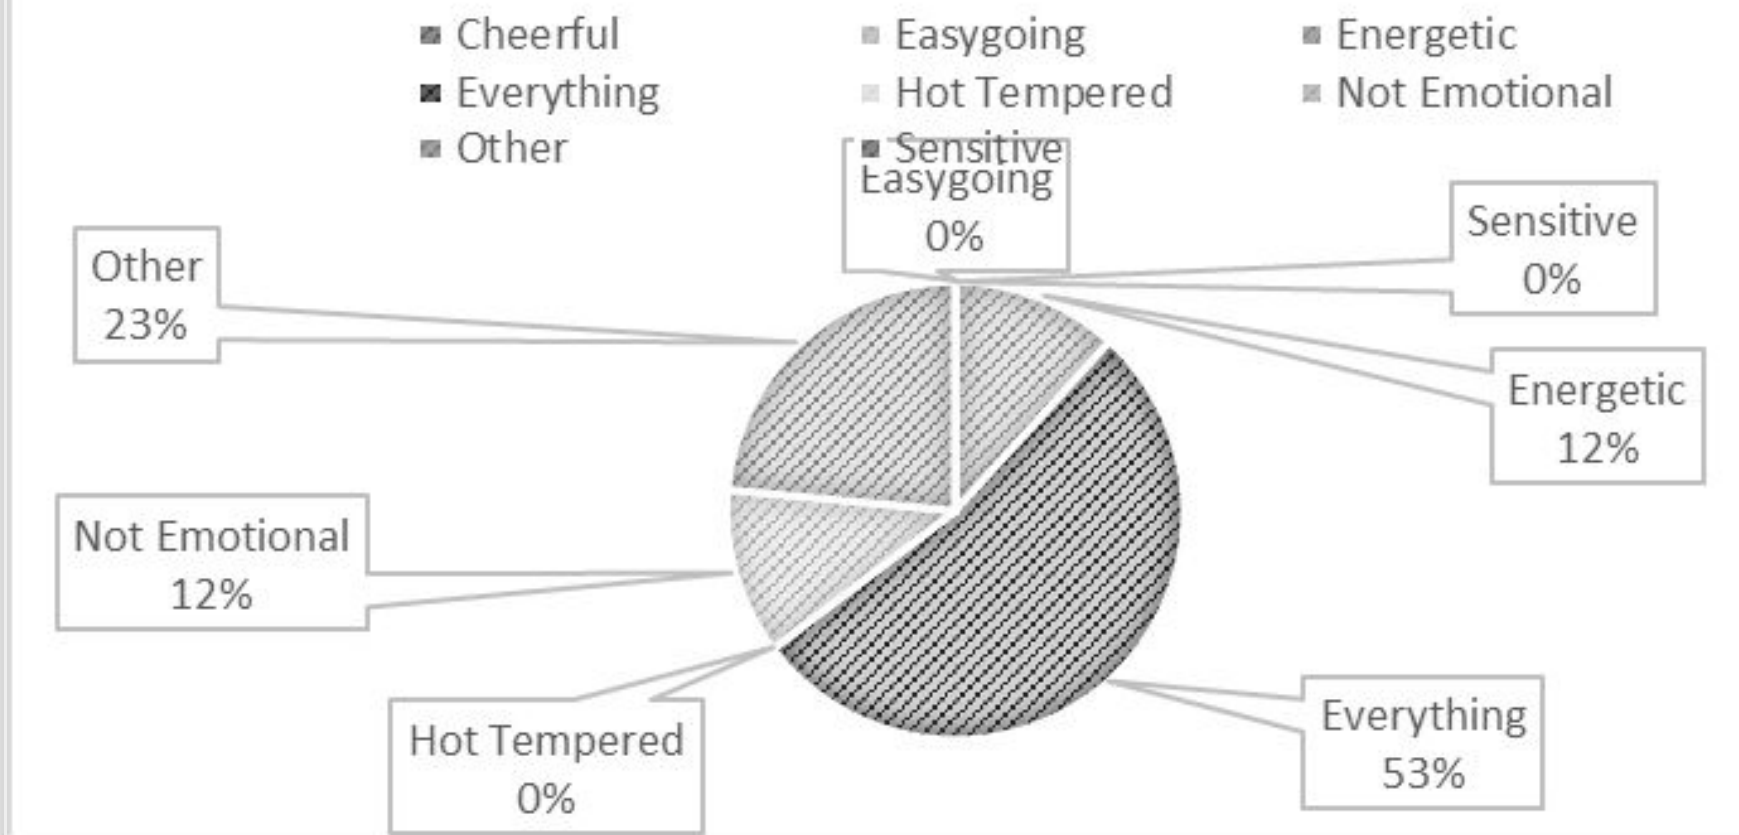

WARM COLOR PERSONALITY TRAITS

COOL COLOR PERSONALITY TRAITS

NEUTRAL COLOR PERSONALITY TRAITS

Conclusion

After collecting our data, we saw that people who like warm colors have less diverse hobbies, but have far more diverse personality traits. Whereas people who chose cool colors have different hobbies but less diverse personalities. Lastly, people who picked neutrals are a mix of hobbies but less difference in personality traits.
