

Chorus Members' Song Choices For Spring Concert - Boys Versus Girls

Method and Participants

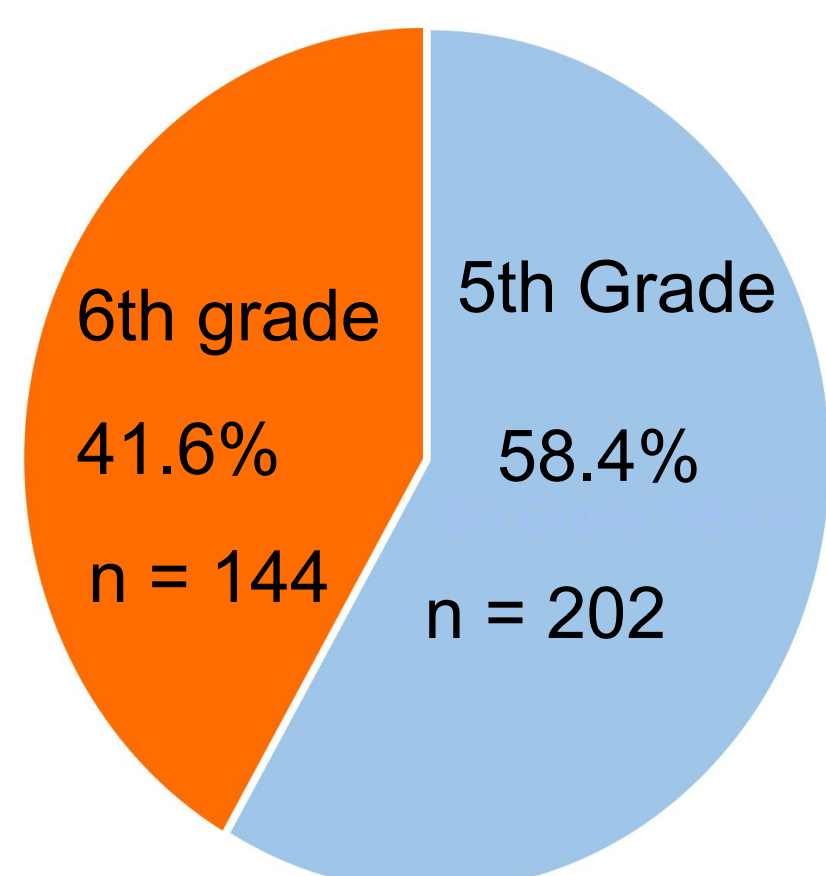

- 5th and 6th grade chorus members (n = 346)
- Google Form with 10 songs choices from Chorus Director to sing at Spring Concert
- Select 1st choice and optional 2nd choice

Gender

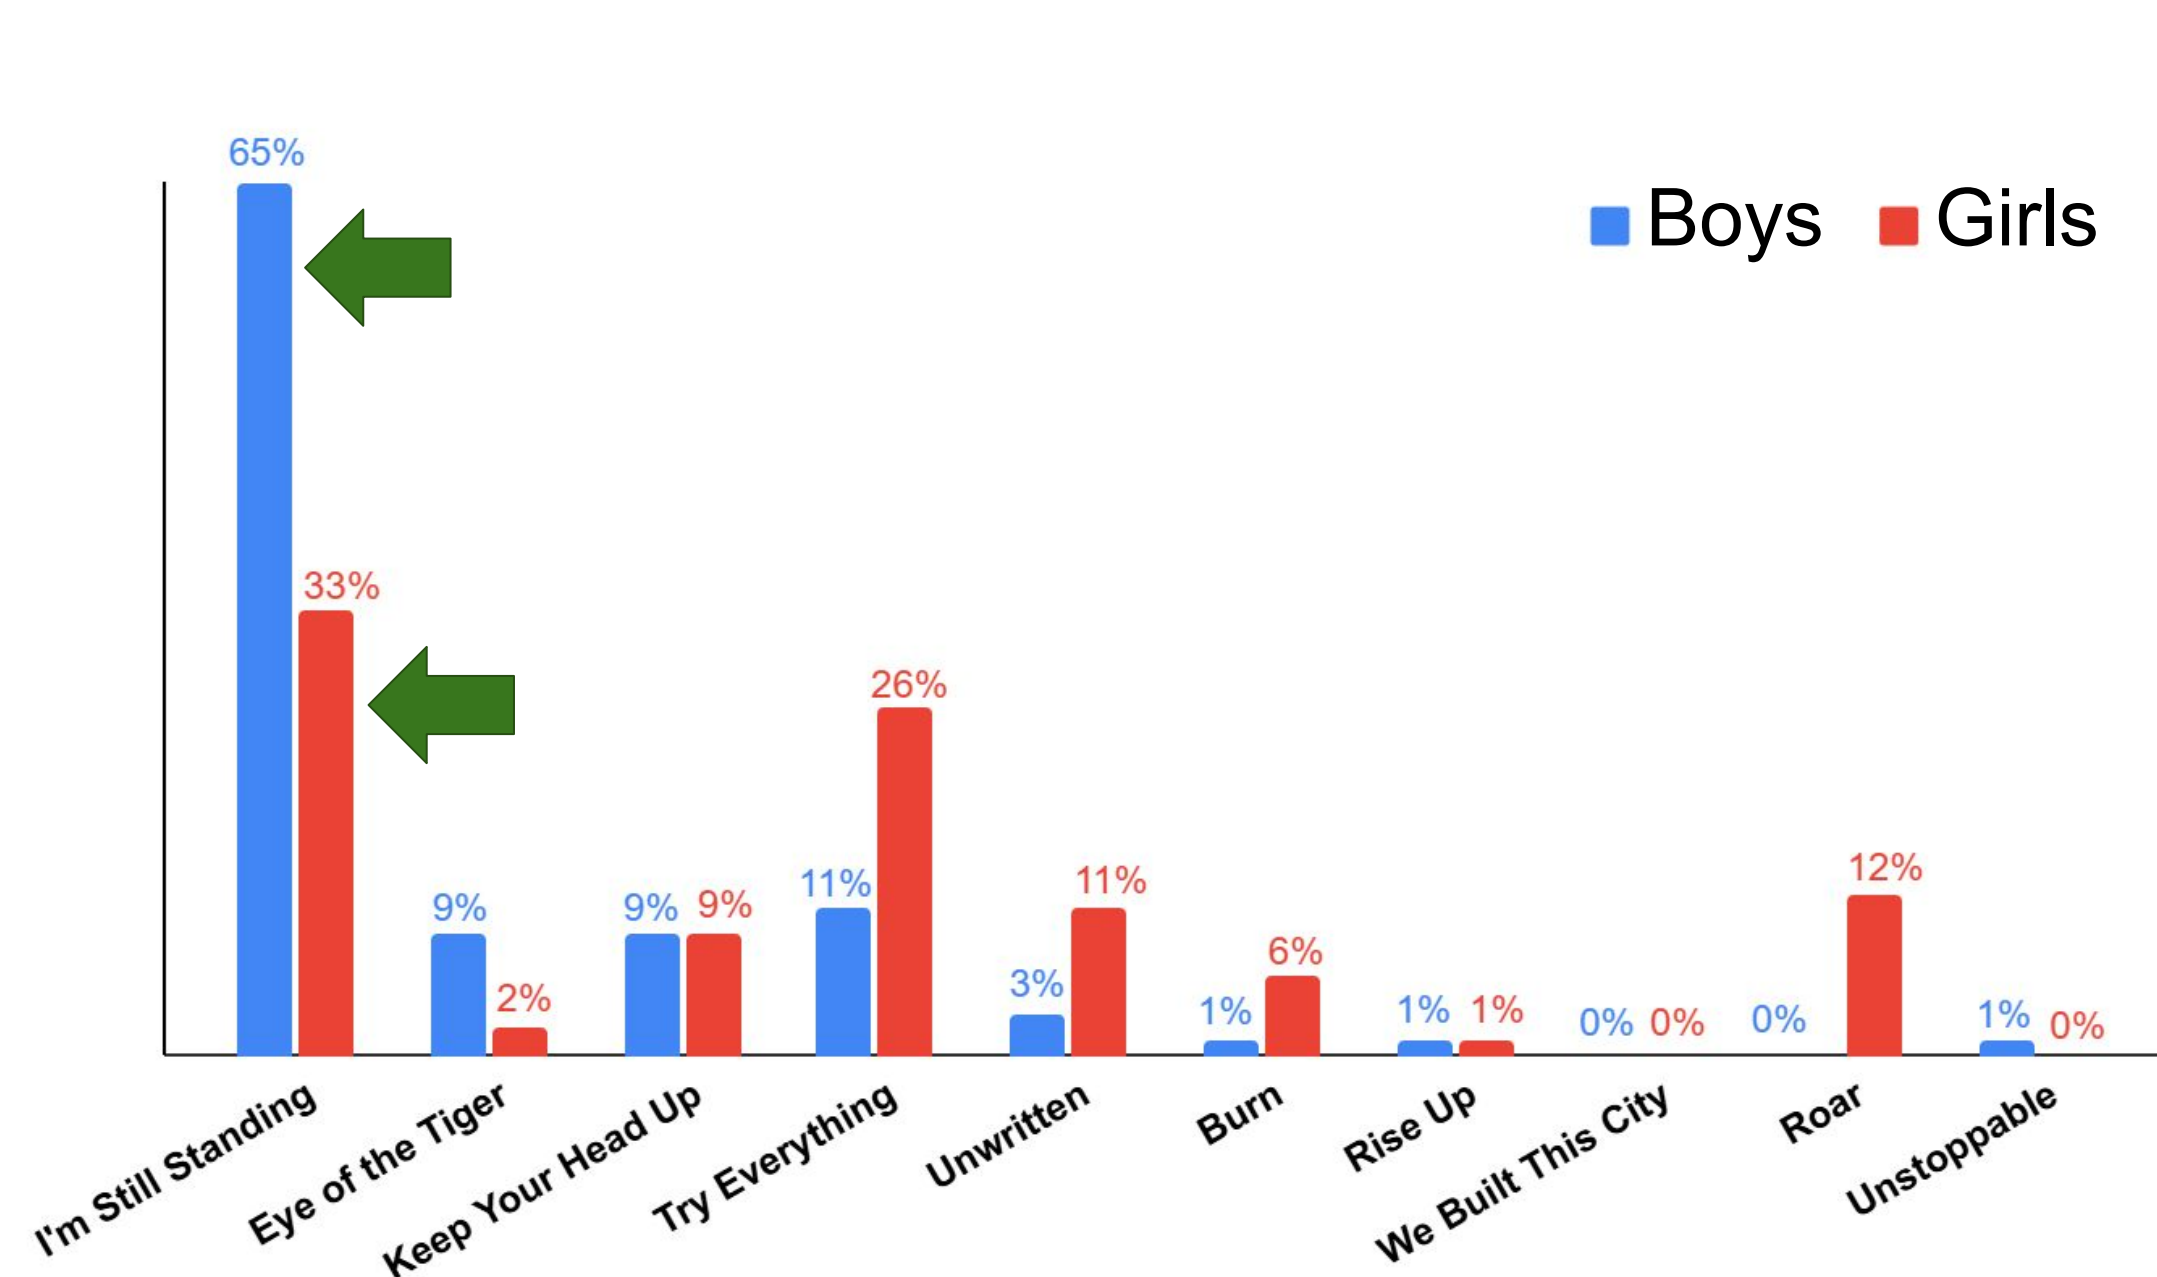

Grade

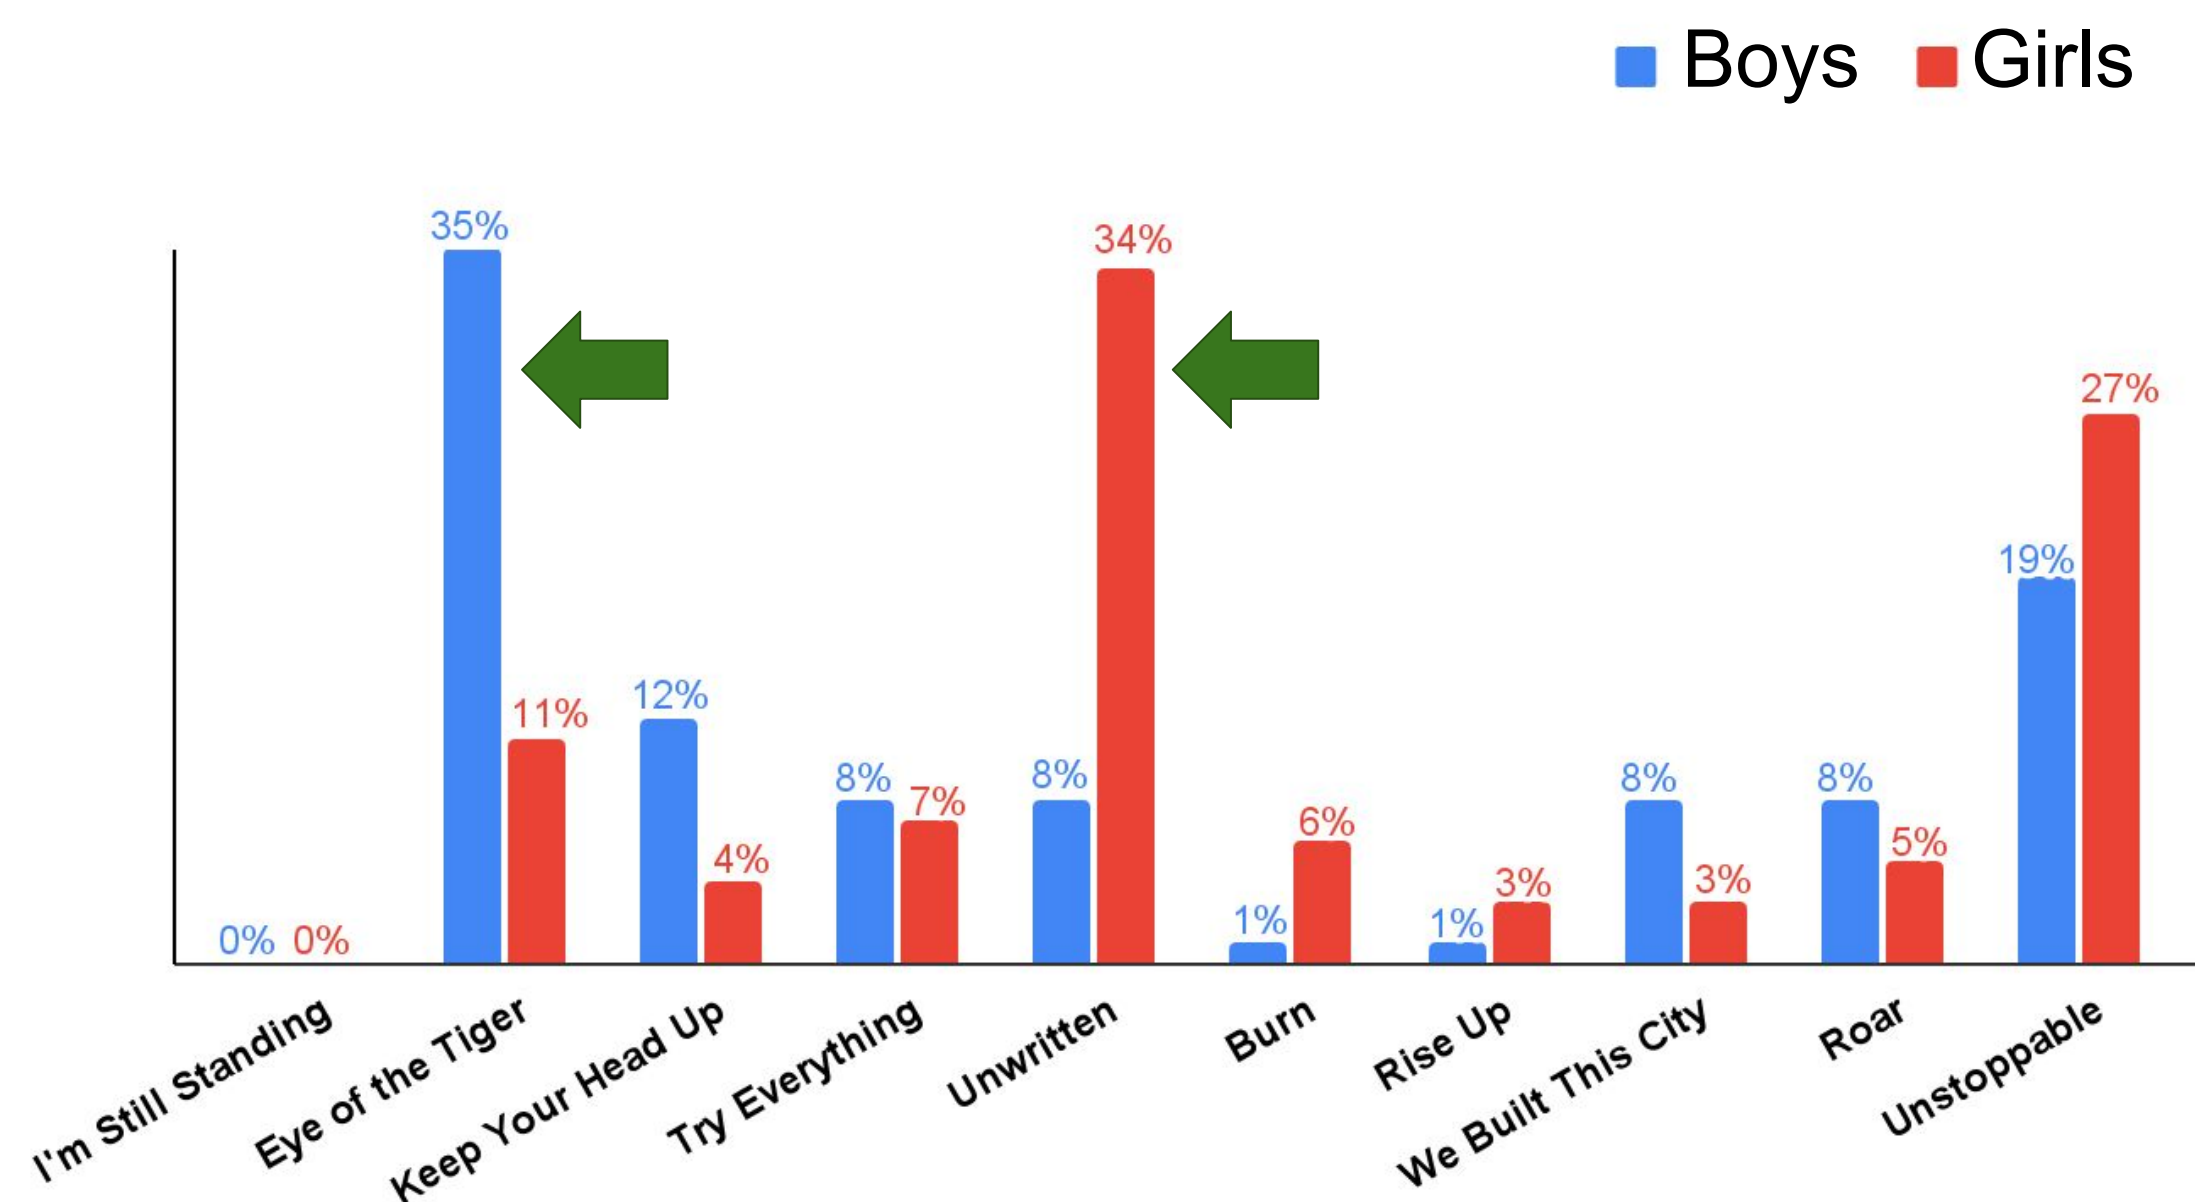

Did boys and girls want to sing different songs?

First Song Choice

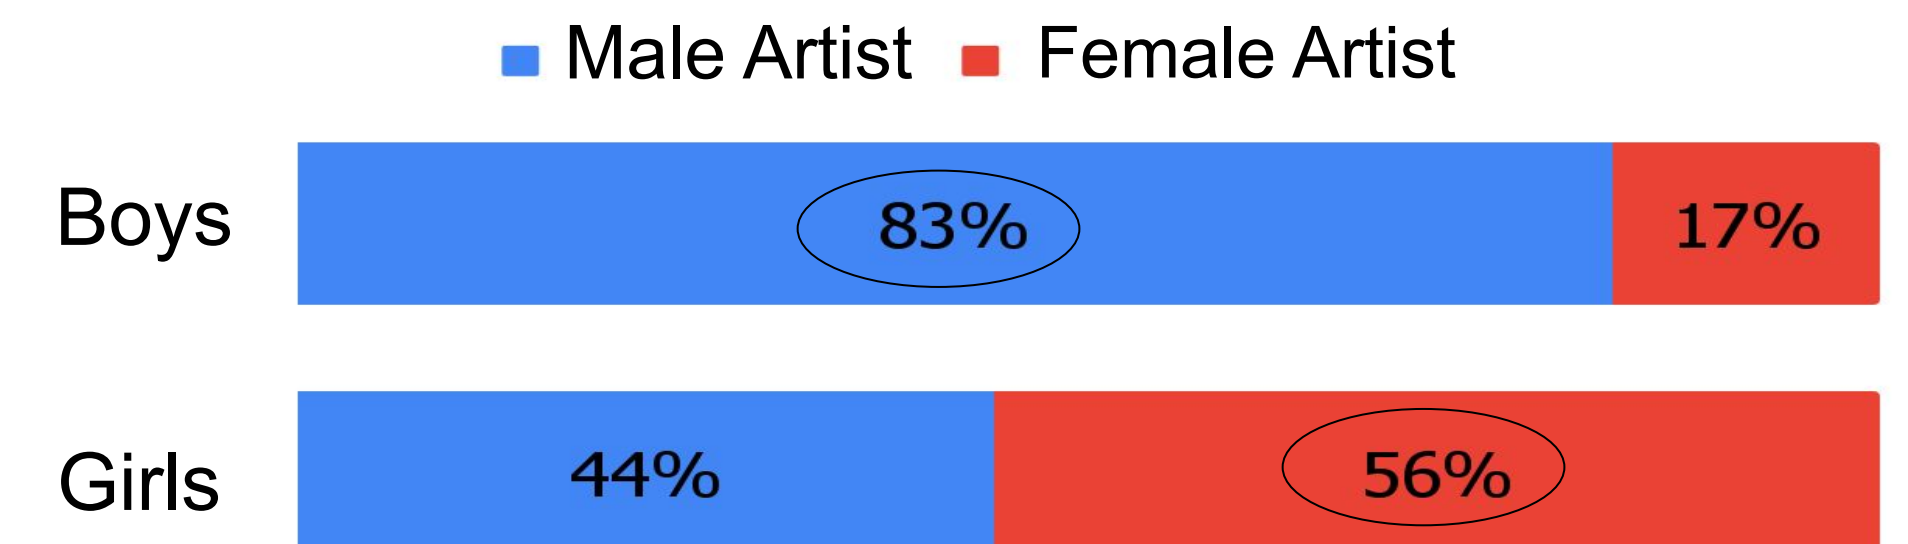

Second Song Choice

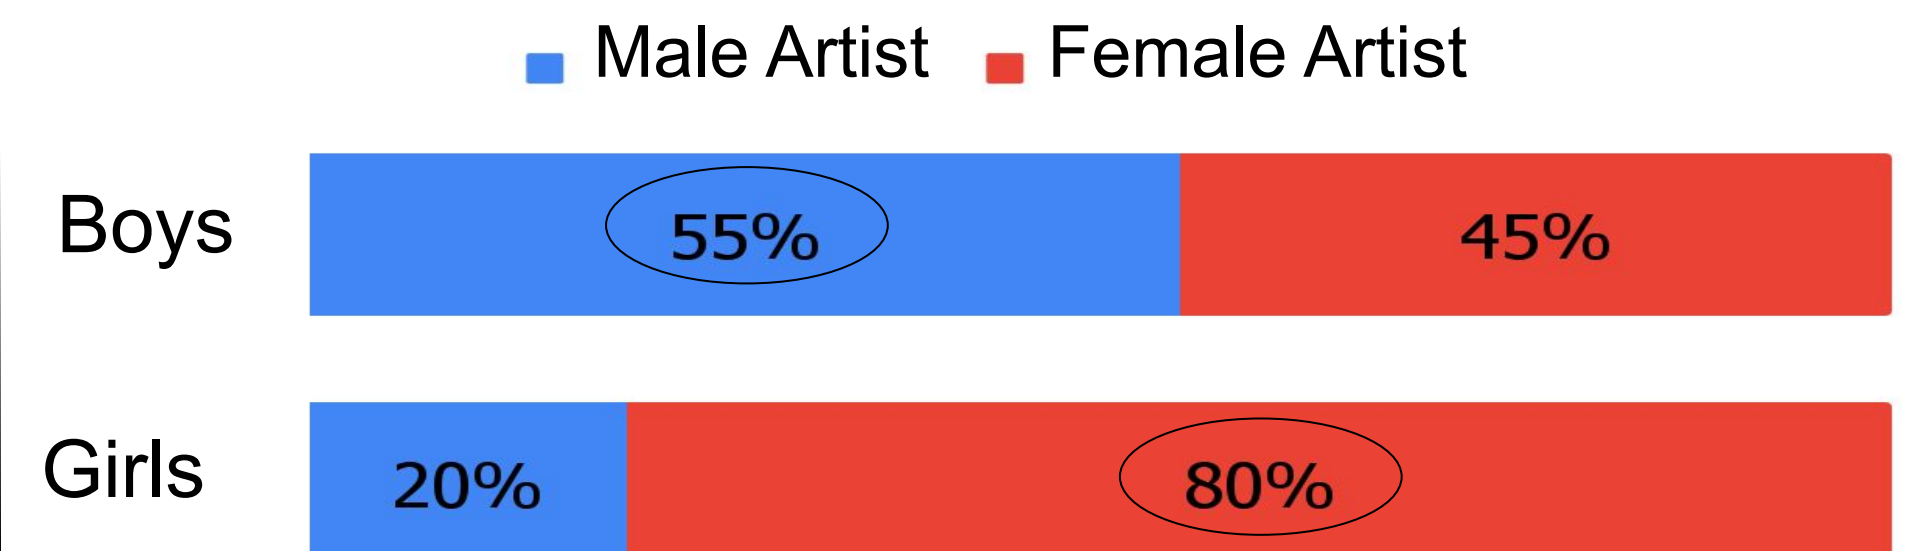

Boys and girls had the same first song choice but boys were almost twice as likely to choose it. They had different second song choices.

Were song choices affected by artist's gender?

First Song Choice Artist Gender

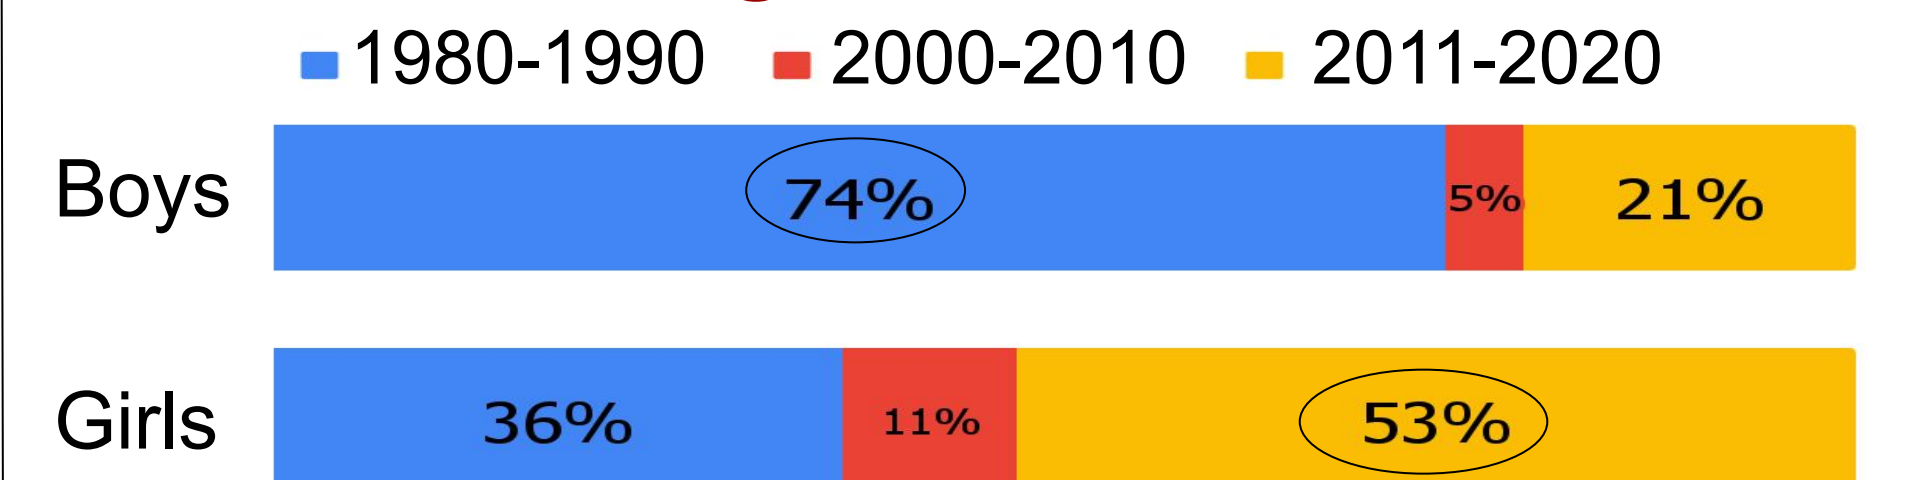

Second Song Choice Artist Gender

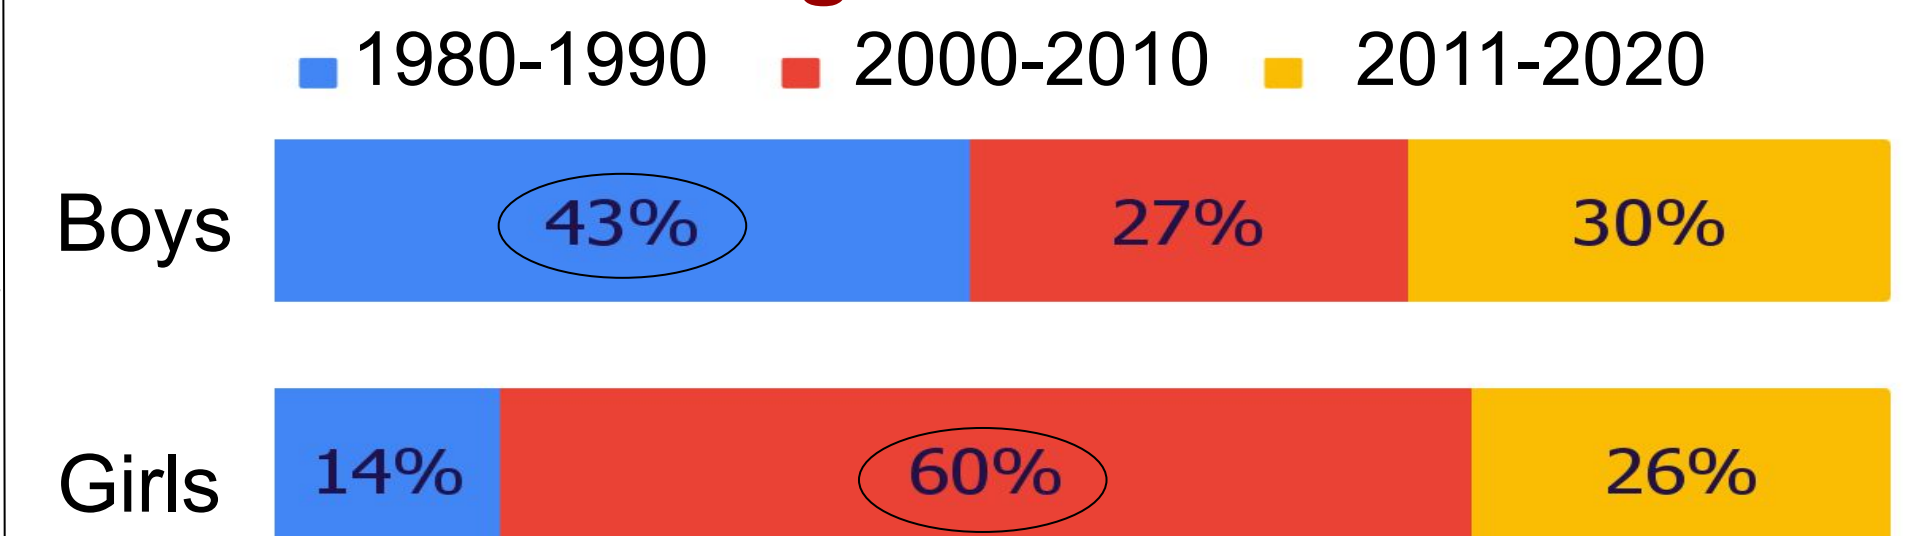

Boys would rather sing songs by male artists and girls would rather sing songs by female artists.

Did either gender prefer older or newer songs?

First Song Choice Release Date

Second Song Choice Release Date

Boys preferred to sing songs from the 1980s, whereas girls preferred to sing songs released in the year 2000 or later.
